To whom it may concern,

I hereby confirm and acknowledge that Mr. Sudip Bhattacharyya has been working for our company since 2010 as a Senior Software Developer. He has been a pleasure to work with, consistently bringing his attention to detail to every project. Sudip's communication and people skills are excellent, and he consistently generates innovative ideas.

I can highly recommend him as a software developer, IT manager, teacher, or for any other role that involves computers and/or software. He is a superb team player and is equally adept at completing projects independently.

It is only due to the difficult financial situation here at Winfakt that we have had to part ways.

I highly recommend Sudip as an employee or contractor and believe he would be an asset to any organization. Please do not hesitate to contact me if you have any further questions.

Best regards,

Patrick Mast,  
CEO Winfakt SOCS BV
